

SAMPLE FILE - Indonesia Imports of Virgin Olive Oil

The purpose of this paper is to show what sort of typical analytical tables and charts are available in a standard TradeData Excel file for any product imported into Indonesia. The product chosen was Virgin Olive Oil. Similar information is available for any product. The information is supplied in Excel file format and the file is designed to enable efficient analysis of the underlying statistics. At the end of this paper there are list two typical import transactions to demonstrate the underlying import information that is available in TradeData’s standard Excel file.

Table – Top Ten Origin Countries

The following table comes directly out of our standard excel file and shows – monthly – the top ten supply countries in terms of volumes as well as average prices, per month, by country. This table provides a convenient summary of month-to-month movements in imports. TradeData will normally supply the current year and five years of back data in its data files. However, if more data is required, in most cases, we can supply at no extra charge.

Top 10 Origin Countries of Indonesia Imports of Virgin olive oil

	Italy	Spain	Turkey	Egypt	Australia	South Korea	Netherlands	Syria	Palestine	USA	Others	Total

Details

There is a worksheet in the excel file that lists Indonesian import details by country and average prices each month. Note these are prices at landed cost in Indonesia (CIF) which include transport and insurance costs. A small sample is below.

Date	Partner_Country_strd	Port	Mode_of_Transport	Sum of Quantity1	Sum of Value_CIF	Unit Price CIF
Aug-23	Italy	TANJUNG PRIOK		102,411	\$899,426.00	\$8.78
		SOEKARNO-HATTA (Air		28	\$219.00	\$7.82
	Turkey	TANJUNG PRIOK		20,698	\$121,605.00	\$5.88
		TANJUNG PERAK	Sea	15,600	\$118,014.00	\$7.57
	Spain	TANJUNG PRIOK		1,245	\$5,279.00	\$4.24
	South Korea	TANJUNG PRIOK		295	\$1,038.00	\$3.52
	New Zealand	SOEKARNO-HATTA (Air		55	\$2,739.00	\$49.80
Aug-23 Total				140,332	\$1,148,320.00	\$8.18

Price and Quantity

The next chart shows monthly movement in import volumes - the blue shaded area of the chart - and in average prices on a CIF basis. Import volumes are higher in the middle of each year. Import volumes are erratic on a month-to-month basis but stable over time when considered on a trend basis. Import volumes have declined late in 2022 and early 2023 and this is associated with sharply increasing average prices.

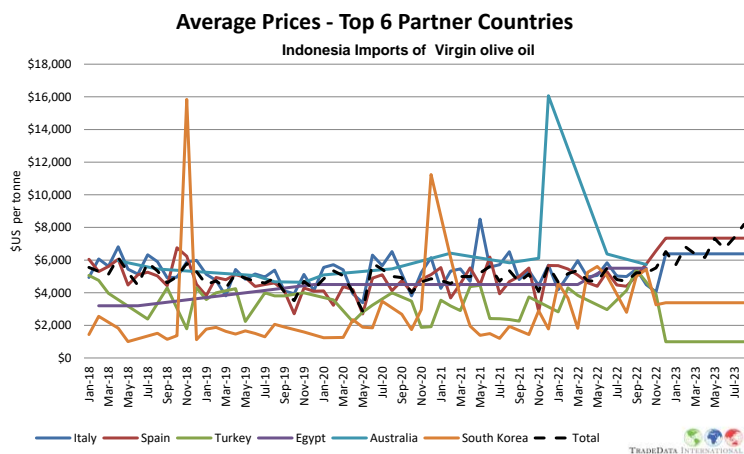

The excel file enables the user to select a supply country and then redraw this Price & Quantity chart to only include imports from the selected country. The chart below lists Price and Quantity where imports only from Italy are selected. Import volumes are erratic on a month-to-month basis but stable on a trend basis. Similar to above, import volumes are lower late in 2022 and average prices higher thus far in 2023. Import volumes recovered mid-year.

Average Prices – Top Six Supply Countries over Time

The following chart list average prices over time for the top 6 supply countries to Indonesia. Italy and Spain are the two largest (by far) supply countries, and they sell at prices close to the average. The other countries listed sell at far lower prices and sell smaller volumes.

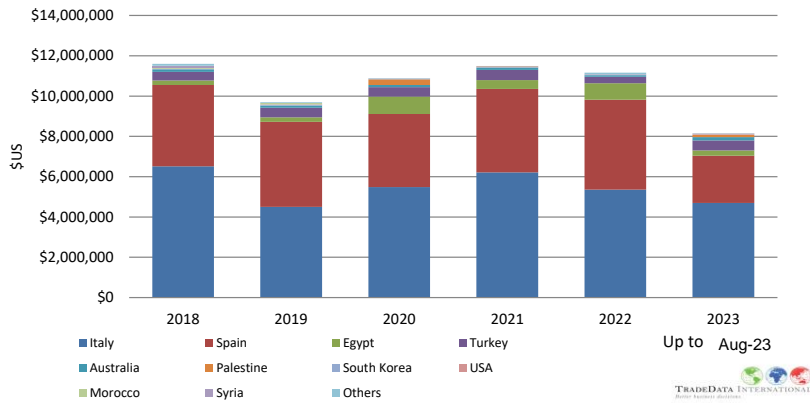

Major Supply Countries

The following two charts list annually the top ten supply countries to Indonesia both in volume and value terms. These charts draw the major supply countries market shares over time. Imports from Italy and Spain dominate and combined they have well over 90% of the market. Import volumes are growing slowly over time with a value just below \$US 12 million. Import volumes fell slightly in 2022 with reduced sales in the second half of the year.

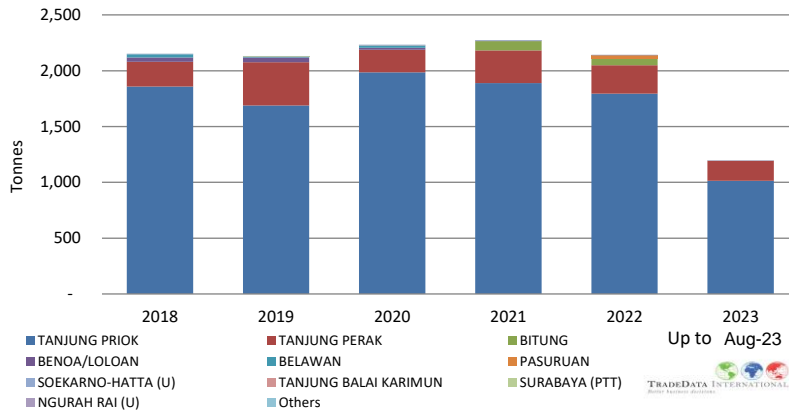

Indonesia Imports of Virgin olive oil by Value

Imports Volumes by Ports of Discharge in Indonesia

The following chart lists the Ports of Discharge in Indonesia where imports arrive. In recent years over 90% of imports arrive in Tanjung Priok, and a small percentage in Tanjung Perak.

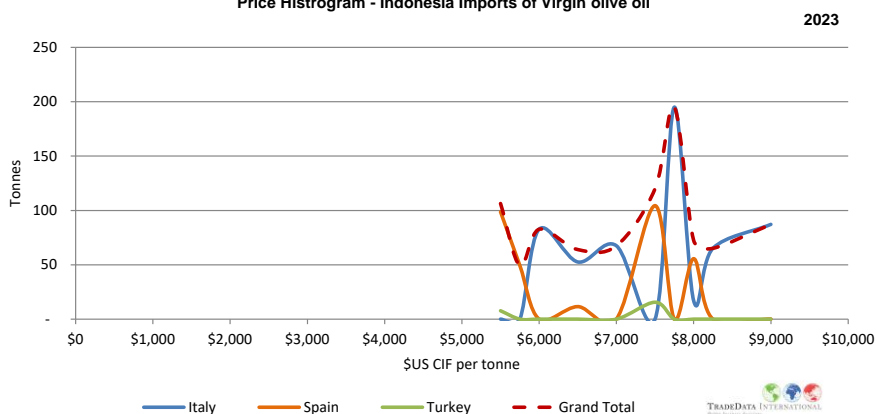

Indonesia Imports of Virgin olive oil by Custom Ports by Quantity

Market Segments

The following chart lists a Price Histogram by Country. This shows thus far in 2023, the volumes imported at different price points and which major supply country supplied at these price points. The excel file enables the user to select different years and the chart will redraw itself accordingly. Spain supplies most of its olive oil at two price points. The first at \$US5,500 per tonne and the second at between \$US 7,500 and \$US 8,000 per tonne. Italy, the other major supplier, supplies larger volumes around \$US 8,000 per tonne, and smaller volumes at prices between \$US 6,000 and \$US 7,000 per tonne.
